Gokhan Ergocun

China's exports posted an increase of 19.4% year-on-year in May amid severe effects of ongoing conflict in the Middle East, the General Administration of Customs of China's data showed on Tuesday.

The country's exports rose by 19.4% to $376.7 billion in May, while market expectations was at about 15%.

China's imports went up by 24.3% to $271.3 billion; the foreign trade surplus was at $105.4 billion.
