Today, a round table on next exposure of so-called Armenian genocide was held at Scientific-Research Institute on Human Rights of Azerbaijan National Academy of Sciences (ANAS).

APA reports MP, ANAS Vice-President İsa Habibaylı said at the event that Armenians make false statements about the Armenian genocide on the eve of April 24 every year.

According to him, by these statements, they try to realize their land claims, ideas of distressful armenian.

Thereafter, a film on Armenian lies was presented. The film reflected opinions of Russian and Armenian politicians, scientists, as well as rare documents found in Russian, Turkish and Georgia archives for the first time. The film reveals when and how Armenians have come to Caucasus for the first time based on the historical facts.

These facts referred to the lectures of the US politician Bruce Fein, US admiral Mark Bristol, UK politician and serviceman, Admiral Colby Chester, as well as to the researches of famous scientists Stanford Show, Justin McCartin, UK historian and professor Norman Stone, US professor Gunther Levine, Turkish scientist Mehmet Perincek have revealed the absurdity of Armenian genocide for the next time.

It was proved in the discussions that not Azerbaijanis, but Armenians committed genocide against Azerbaijanis and Turks.
