**BULGARGAZ DEMANDS 32.44% INCREASE IN GAS PRICES**

-

13.02.2017

---

Novinite (13 February 2017)

Bulgaria's state-owned gas supplier has announced the prices of natural gas will have to go up by nearly a third as of April this year.

In a statement, the company has cited higher supply costs as of the next quarter.

Another argument is the current BGN/USD exchange rate.

The new proposal will be submitted to the Energy and Water Regulatory Commission at its next session on March 10.
