Trend Haber Ajansı

Azerbaijan Armed Forces have started a wide-scale military exercise in which various types of weapons are used.

Azerbaijan Defense Ministry announced that the exercise, which started on April 16, involves 30 thousand personnel, more than 250 tanks and armored vehicles, 200 missile systems and aircraft, 25 different types of warplanes and helicopters, and new generation radio-electronic reconnaissance vehicles and Unmanned Aerial Vehicles (UAVs).

The exercise involves the deployment of forces and command posts in the operational area, the mobilization of reserves, the formation of combat units and the execution of combat tasks, the deployment of reserve aircraft, the deployment of reserve missile systems and the deployment of reserve units.

Azerbaijan Army's comprehensive exercises will end tomorrow.
