29.09.2017

---

Sarajevo Times (29 September 2017)

BH Company Igman Konjic, which is engaged in the military industry, will deliver new ammunition worth 3 million USD to Pakistan.

As confirmed by the Ambassador of BiH to the Islamic Republic of Pakistan, Nedim Makarevic, this represents a kind of continuation of the cooperation, since the ammunition from Igman has been exported to Pakistan since the year of 2014.

This time, the contract was signed for new, bigger quantities of sniper bullets 12.7, after Igman surpassed the British Prime Tec product on the tender competition. Products should be delivered through intermediary companies by the end of the year.

We are exporting this product continuously since 2014. We are hoping that our efforts will bear fruit and that the market of Pakistan will be open for other products of Igman Konjic, as well as the products of our other companies, such as Pretis, Binas, and Pobjeda, stated Ambassador Makarevic.

He added that there are several companies in the private sector in BiH that are producing very interesting products, such as special lighters that are very interesting to the Pakistani market, and he hopes that these companies will realize the jobs and exports of their goods to Pakistan.
