Armenia media reports that the UN has published on its website a document relating to the illegal regime established in the Armenian-occupied Azerbaijani territories is nothing but a lie and disinformation, Azerbaijani Foreign Ministry Spokesperson Hikmat Hajiyev told APA.

He said that this way Armenia's new government is trying to mislead the public in the first place.

"As these lies get exposed, Armenian media outlets edit the headlines. Armenias Permanent Mission to the United Nations, as a member state, sends a letter and attaches to it some papers relating to the illegal regime. This act of Armenia is disrespect to UN member states and the UN Charter. For environmental reasons, such sheets of paper are used in the UN as scrap paper. Azerbaijan's Permanent Mission to the United Nations has informed the UN Secretariat and the UN member states about such a frivolous activity of Armenia, Hajiyev added.
