There are rumors that a large number of ambassadors will be recalled to Armenia in September and October, according to Hraparak (Square) newspaper.

It is not about diplomats, or those who reached the ambassadors position by way of a growth in diplomatic career, but [about those who were appointed Armenias ambassadors] based on political or other considerations.

Now [Prime Minister] Nikol Pashinyan has decided to recall them all and appoint professional diplomats who have relevant education and work experience, wrote Hraparak.
