---

Aysor.am, 05.02.2019

Zhamanak paper writes that Gazprom Armenia is not going to compensate the raise of gas tariff by Gazprom for Armenia on the account of cutting its expenses.

Citing its sources, the paper says even negotiations have not been conducted with the company while the \$15 debt is being collected.

As far as Gazprom Armenia is 100% Russian company it remains to suppose what this time Armenia must give Russia to cover the debt.

The paper says more probably the turn will come to Yerevan Thermo Power Plant.
