Prime Minister, Edi Rama has reacted on Saturday evening on the opposition's protest, expressing his sadness for the violence used by some demonstrators. He openly challenged the opposition's leader that he and his supporters cannot damage Prime Minister or Government, but with these actions they damage only Albania. "What a sadness, seeing an opposition leader saying without a voice to the government "Please go", while those around him, throw fire on Prime Ministry headquarters. I wish to those who are still behind this politics, that fire cannot damage government, but only Albania," said Rama.
