TWO ROCKETS STRIKE K-1 BASE HOSTING US TROOPS IN KIRKUK, IRAQ

- 14.02.2020

RT News (13 February 2020)

At least two unguided missiles have hit the K-1 base hosting US troops outside Kirkuk in Iraq. There are no reports of casualties or damage. A similar attack in December that killed a US contractor almost sparked a war with Iran.

Local media and international wires reported the strike on Thursday evening local time. It was unclear who was behind it, though some sources immediately blamed Shia militia Kataib Hezbollah.
