
EU LEADERS SEEK 'EXIT STRATEGIES' AS INFECTIONS SLOW

-

07.04.2020

EU Observer (7 April 2020)

EU leaders have begun to explore possible exit strategies to their national lockdowns - as the latest figures in the worst-hit member states indicate a slowing in the rate of new coronavirus cases and deaths.

Italy, Spain, France and Germany on Monday (6 April) all reported declines in their daily death tolls from the virus, roughly three weeks after lockdowns and restrictive measures entered into force.
