AzerTAC (22 May 2020)

Azerbaijans Minister of Defense Colonel General Zakir Hasanov and the leadership of the ministry have attended the opening of the new military units, and inspected facilities being under construction in the frontline zone.

The officials inspected the headquarters buildings, soldiers barracks, canteens, medical points, sports towns, parade grounds, and storage facilities for military equipment.

The buildings that have IP protection and IP video surveillance systems, fire alarm systems, and internal communications are fully provided with furniture and equipment. Ideological premises, briefing rooms, conference halls, and other office premises were transferred for use in headquarters buildings.

The buildings of residence halls built on the territory of military units are also equipped with furniture and equipment. The working, amenity, and other office premises were also transferred to use. The building has fire protection and an internal communication system.

Medical points of the military units are fitted with modern medical equipment.

Spacious canteens built to provide a comfortable and quality meal are also supplied with necessary equipment.

There are refrigerators and other premises for storing food products in food warehouses that have been built in military units, and in warehouses, there are premises for storing property. Landscaping lanes were laid on the territory, various tree species and ornamental shrubs were planted, asphalt was laid on the roads, a gas pipeline, and high-voltage power lines were set off.

90 percent of the construction, reconstruction, and repair work carried out at the military facilities of the Azerbaijan Army was completed, and in the coming years, it is planned to complete the whole work. The construction of residence halls intended for servicemen and their families is ongoing, and under the instruction of the Supreme Commander-in-Chief, work in this sphere would continue to be carried out in the future.

Inquiring about the progress of construction work, the defense minister, gave relevant instructions for its high quality and timely completion.
