
OSCE MISSION TO BOSNIA AND HERZEGOVINA DONATES IT EQUIPMENT

-

02.06.2020

Sarajevo Times (01 June 2020)

The OSCE Mission to Bosnia and Herzegovina (BiH), as part of its wider initiative to support Bosnia and Herzegovina in its pandemic response, on 1 June 2020 in Bihac, provided IT equipment for the Una Sana Canton Ministry of Education.

The Ministry was given laptops, tablets and PCs to be distributed to students.

Christopher Blair, Head of the OSCE Field Office Drvar, praised the endeavours of the Ministry of Education to provide all the necessary conditions for all students in the Una Sana Canton to have access to online education.

Unfortunately, certain students cannot follow distance learning due to the lack of technical equipment, said Blair. This donation will allow the students regular access to audio and video applications teachers use in online education thus equipping them with the adequate tools to conclude the school year and accomplish their education goals.
