By Nargiz Ismayilova

The main goal of the work of the Permanent Secretariat (PS) of the Intergovernmental Commission (IGC) TRACECA is creating an international transport corridor that meets the requirements of the 21st century, namely, competitive in both the cost of transportation and the time of delivery of goods, Secretary General of the Permanent Secretariat of the IGC TRACECA Asset Assavbayev told Trend.

Assavbayev said that the TRACECA is currently working in several directions.

"Presently, we are working towards digitalization, transferring processes and documentation into electronic format, creating an online platform for all participants in the process of transporting goods," he said.
