Prime Minister Mustafa Al-Kadhimi issued two directives regarding the activist Ihab Al-Wazni and the burning of agricultural crops.

The media office of the Prime Minister conveyed Al-Kadhimi speech during the cabinet session, and the Iraqi News Agency (INA) received it, that "the killers of civil activist Ihab Jawad Al-Wazni are entrenched in the crime, and the most illusion that they will escape from the grip of justice," pointing out, "We will pursue the killers and revenge from every criminal he has allowed himself to tamper with public security. "

Al-Kadhimi directed "the Ministry of the Interior agencies to quickly reveal the killers of the activist Al-Wazni," noting that "the criminals have bankrupted their attempts to create chaos and have tended to target unarmed activists, but the law will hold them accountable as others have fallen in the grip of justice before."
