
PAKISTAN SEEKS PROBE INTO SEIZURE OF RADIOACTIVE URANIUM IN INDIA

- 10.05.2021

TRT World (9 May 2021)

Pakistan has called for a "thorough investigation" after Indian authorities recovered more than seven kilogrammes of highly radioactive uranium in western Maharashtra state.

"We have noted with serious concern reports about seizure of more than 7 Kg natural uranium from unauthorised persons in India," Foreign Ministry spokesperson, Zahid Hafeez Chaudhri, said on Saturday.

"Security of nuclear materials should be the top priority for all countries, and there is a need for thorough investigation of the matter," the statement posted on Twitter added.
