## CHINA SIGNALS STEADY COURSE AFTER UN CLIMATE WARNING

- 10.08.2021

---

Channel News Asia (10 August 2021)

China insisted on Tuesday (Aug 10) it was implementing its climate commitments, while signalling no new policies following a UN report warning much more urgent action was needed to fight global warming.

Many world leaders responded to Monday's report, which said climate change was occurring faster than estimated, by calling for decisive and immediate moves to curtail fossil fuels.

When asked for a response to the report, China's foreign ministry emphasised the government's current policies and commitments.
