President İlham Aliyev has said that Armenia has to give a date when the Zangazur corridor will be opened, and then there will be no problem in this case.

He made the remarks at his meeting with residents of Guba region's Gonagkand settlement on December 6.

Aliyev recalled his remarks made during last year's 44-day war and stressed that he had said that they should give us a timetable of when they would vacate our lands, and we were ready to stop the war.
