Ukrinform (7 December 2021)

The Parliament of Moldova ratified a protocol amending Moldova-Ukraine free trade agreement.

According to the Parliaments press service, the proposed amendments will facilitate access of investors and businesses to the benefits of existing preferential agreements between Moldova, the European Union, and Ukraine, Ukrinform reports with reference to NewsMaker.

Pursuant to the amendments, Ukrainian producers will be able to import raw materials and components for processing into Moldova and then export the final products to the EU countries. At the same time, the goods will receive certificates of Moldovan origin and this will not require the payment of duties under the current preferential regime.
