27.01.2022

Kabar (26 January 2022)

The Ministry of Energy of Iran is interested in the construction of hydropower plants in the Kyrgyz Republic.

The press service of the Kyrgyz Foreign Ministry reported that Ambassador of Kyrgyzstan to Iran Turdakun Sydykov met on Monday with Energy Minister of Iran Ali-Akbar Mehrabian.

During the meeting, Sydykov informed the Iranian minister about the hydropower potential of Kyrgyzstan and noted that President Sadyr Zhaparov pays special attention to the development of renewable clean energy sources, including the construction of hydropower plants.
