
EU COMMISSION WANTS TO SET WORLD'S FIRST DIGITAL STANDARDS

-

27.01.2022

EU Observer (27 January 2022)

The EU Commission on Wednesday (26 January) set out a proposal for digital rights and principles, with the aim to protect people's rights, privacy, democracy and security in the online world.

The principles are to provide a guideline for policymakers in the 27 member states, public administrations, and companies when dealing with or developing new technologies.
