
15 EU STATES SUBSIDISE FOSSIL-FUELS MORE THAN RENEWABLES

-

01.02.2022

EU Observer (1 February 2022)

Fifteen EU member states gave more subsidies to fossil fuels than to renewable energies in 2020, despite their climate commitments, a new report from the European Court of Auditors revealed on Monday (31 January).

On average, renewable-energy subsidies are higher than fossil-fuel subsidies across the EU, but there are significant differences between EU countries.
