Anadolu Agency (3 March 2022)

Ali Jawad

A giant picture of Russian President Vladimir Putin in the Iraqi capital Baghdad has sparked controversy among Iraqis. Witnesses told Anadolu Agency that the picture was erected on Wednesday evening by unknown individuals in the Karrada district in central Baghdad as an expression of support to Russia in its war on Ukraine.

We Support Russia, was written at the edge of the picture with the individuals describing themselves as Friends of the President, said the witnesses.

They added that Iraqi security forces removed the photo on Thursday.
