ARMENIA COMMENCES FIELD WORKS OF YERASKH-JULFA-ORDUBAD-MEGHRI-HORADIZ RAILWAY

-

04.03.2022

ArmenPress (3 March 2022)

The field works of the Yeraskh-Julfa-Ordubad-Meghri-Horadiz railways Armenian part, namely of the Meghri region are commencing, Prime Minister Nikol Pashinyan said at the Cabinet meeting, addressing a decision on allocating funds to the Ministry of Territorial Administration and Infrastructures. Certain preparatory work is planned to be made on 43 kilometer length in the Yeraskh and Meghri section prior to the project's technical objective.

This is a very important event, the PM said. Id like to express hope that simultaneously we will de jure record the agreements which were reached during the trilateral meetings in 2021 in Sochi and in Brussels. Before that, the work is not stopping, we are simultaneously working to use the time rationally, he said.

Minister of Territorial Administration and Infrastructures Gnel Sanosyan said that as a result of studies in those areas they will specify the standards of ordering the blueprinting works and will implement the technical objectives.
