The Supreme Judicial Council of northern Iraq's Kurdish Regional Government (KRG) on Monday called for a complaint to be filed with the United Nations Security Council (UNSC) on the Iranian missile attack in Erbil.

On Sunday, Iran's Islamic Revolutionary Guard Corps (IRGC) claimed responsibility for Saturday's strike, saying the missile attack targeted Israeli facilities in Erbil.

The Iraqi government should "take the necessary measures by submitting a complaint to the UN Security Council regarding violations of Iraq's sovereignty," the council said in a statement.
