**EAEU NETWORK UNIVERSITY - NEW WORD IN EDUCATION**

- 20.05.2022

---

Kabar (19 May 2022)

The Eurasian Economic Forum (EAEU) will be held in Bishkek on May 26. More than a thousand representatives of business, authorities, business circles will become its participants. Except for entrepreneurship, one of the key topics at the forum will be the development of higher education. In particular, the forum will focus on the creation of a network university of the EAEU.

A similar university was previously created within the framework of the Commonwealth of Independent States. It is an equal cooperation of several CIS universities.

The issue of creating a network university of the EAEU is still under discussion and unambiguous criteria on conditions for joining various universities have not yet been formulated. But higher educational institutions of the EAEU countries should at least have a license to carry out educational activities and a certificate of state accreditation.
