BNT News (9 June 2022)

The opposition in Bulgarias 47th National Assembly on June 9 demanded the resignation of the entire government and elections.

According to the opposition parties, there is no point in wasting more time. They believe that the changes in the cabinet and the budget update will be a vote of confidence in the cabinet.

The three opposition parties in the Parliament GERB-UDF, Movement for Rights and Freedoms (MRF) and "Vazrazhdane" are united around the thesis that this government is incompetent and cannot provide security and stability to the country in the conditions of economic crisis and war.
