
TRAFFIC LIGHTS IN BAGHDAD RESUME FUNCTIONING, FOR 1ST TIME IN 19 YEARS SINCE US INVASION

-

10.06.2022

Anadolu Agency (9 June 2022)

Haydar Karaalp

Traffic lights are set to function in the Iraqi capital Baghdad again after a 19-year suspension following the US invasion.

Most traffic lights on some streets of Baghdad have been destroyed because of the chaos and violence caused by the US invasion of Iraq in 2003.

Some bullet-scarred traffic lights still show signs of the damages caused during the occupation period.
