Astana Times (4 July 2022)

The Trade Facilitation Portal in Kazakhstan has been launched as part of the Ready4Trade Central Asia project funded by the European Union (EU) and implemented by the International Trade Center (ITC), on July 4.

The new online platform provides information on cross-border trading procedures and makes it more accessible for businesses.

Youri Skaskevitch, the Manager of the Ready4Trade Central Asia program from the EU Delegation to Kazakhstan, said the program worth 15 million euros (US\$15.6 million) is implemented in all five Central Asian countries and by the ITC. The project aims to facilitate trade between Central Asian countries and the rest of the world and the EU. One of the tasks is to resolve non-tariff barriers.
