Uz Daily (9 August 2022)

A delegation of Uzbekistan headed by Deputy Minister of Agriculture Kakhramon Yuldashev visited the Republic of Turkmenistan, namely Ashgabat and Ahal region, where on 5-6 August 2022 a meeting was held with the Deputy Minister of Agriculture and Ecology of the Republic of Turkmenistan Shohrat Annamyradov, Deputy Chairman of the State Committee for Water Resources Dovlet Mammadov, representatives of the relevant departments of the ministry and heads of system organizations of the Republic of Turkmenistan.

The purpose of the visit is to expand joint activities in the areas of agriculture and water management. Cooperation in the field of cotton growing, seed growing, horticulture, greenhouse farming, science and digitalization was discussed.

Promising directions were identified in the development of a program for testing high-yielding, early-ripening and salt-tolerant varieties of cotton; on the mutual exchange of seeds of vegetable, melon crops and the creation of new varieties; on cooperation in the field of horticulture; to train farmers and specialists from Turkmenistan at the National Center for Knowledge, Innovation and Services (AKIS).
