Hidroelectrica, the largest energy producer in Romania, is delivering electricity to Moldova's energy trader Energocom at a rate of 100 MW. The delivery started on the night of October 13 to 14, and the duration of the contract was not announced, Economica.net reported.

Hidroelectrica's installed capacity is 6,000 MW, and the annual production is 16-17 TWh in normal years resulting in capacity utilisation of roughly one-third.
