Xanthi Deputy Hüseyin Zeybek once again brought up the building problem of Xanthi Minority Secondary and High School with a parliamentary question.

Zeybek once again emphasized that the current building of the school is a 19th century tobacco warehouse and there are not enough classrooms for the number of students in the parliamentary question he submitted to the Ministries of Education and Religious Affairs, Internal Affairs, Transport and Infrastructure.

Zeybek underlined that the problem of the building of the school was also included in the Decision of the Inter-Party Committee for the Development of Thrace and was on the agenda.
