
THE EU HAS A SPY PROBLEM — HERE'S WHY IT'S SO DIFFICULT TO CATCH THEM

- 01.12.2022

Politico (1 December 2022)

Theyre hovering at the bar at the think tank networking event. Theyre raising their hand in the press room at European Union briefings.

Theyre listening in □ if a 2019 warning to staff from the European External Action Service is to be believed — at the bars and restaurants near the European Commissions headquarters.

That the walls have ears has long been a fact of Brussels life. But the fight against espionage is receiving renewed attention as the EUs spy-catchers redouble their efforts in the face of Russian hostility, Chinese spying and the return of Great Power geopolitics.
