UKRAINE WAR: OVERNIGHT STRIKES HIT KYIV AS PUTIN VISITS BELARUS

-

20.12.2022

BBC News (19 December 2022)

Ukraine's capital Kyiv has been rocked by explosions as Russia launched a rare overnight attack on the city.

No-one was killed and most of the missiles were shot down, Ukrainian officials said, but some did hit "critical infrastructure", causing a blackout across the region.

The attack occurred before Russia's President Vladimir Putin arrived in Belarus to meet Alexander Lukashenko.
