Azerbaijan's Minister of Foreign Affairs Jeyhun Bayramov and the US Assistant Secretary of State for European and Eurasian Affairs Karen Donfried had a telephone conversation on January 10, 2023, the Azerbaijani Ministry of Foreign Affairs told Trend.

During the talks, the sides discussed the agenda of cooperation between the two countries and the current situation in the region.

Bayramov noted that despite a number of constructive initiatives taken by the Azerbaijani side in order to normalize Azerbaijani-Armenian relations in the post-conflict period, this process was constantly disrupted due to various provocations by Armenia. In particular, he mentioned Armenia's gross violation of its obligations under the trilateral statement of November 10, 2020, as well as the facts of using the Lachin-Khankendi road for military provocations such as the illegal transportation of mines and their installation. He also pointed out the illegal economic activity carried out on the territory, the looting of natural resources, and the illegal crossing of the Lachin-Khankendi road to Karabakh by third-country nationals.
