## **NORTH KOREA TEST FIRES FOUR LONG RANGE CRUISE MISSILES**

-

24.02.2023

---

Al Jazeera (24 February 2023)

*Pyongyang has begun conducting more weapons tests as the United States and South Korea step up military training.*

North Korea has launched four strategic cruise missiles as part of a military drill that state media said was designed to demonstrate its ability to conduct a nuclear counterattack.

The launches came as the United States and South Korea held a simulated military exercise in Washington, DC, aimed at sharpening their response to North Korean nuclear threats.
