Azerbaijan intends to export more natural gas to Europe, President Ilham Aliyev said Tuesday during an official visit to Germany.

We are increasing our gas exports in the direction of Europe. In 2021, we exported 8 billion cubic meters of gas. This year, we hope to increase this amount to 12 billion cubic meters, which means half of our total exports, Aliyev said during a press conference with German Chancellor Olaf Scholz in Berlin, where he arrived the previous day.

Noting that ties between Germany and Azerbaijan are at a high level, Aliyev said he discussed many issues during his meeting with Scholz, including EU-Azerbaijani relations, in which he said very important steps were being taken.
