Discussions about natural gas transportation from Turkiye to Nakhchivan through the gas pipeline are ongoing, Azernews reports, citing Turkish Energy and Natural Resources Fatih Donmez.

The Minister noted that the Baku-Tbilisi-Erzurum gas pipeline and TANAP projects have been put into operation and Turkiye has an opportunity to gain access to world markets. He added that Turkiye also cooperates with Azerbaijan in the field of electricity, and continues to cooperate in other fields.

Annual 500 million cubic meters of natural gas will be transported through the 85-kilometer line to Nakhchivan.
