Amr Salem

The Iraqi Ministry of Oil announced on Thursday that oil export revenues during March exceeded seven billion USD.

According to final data issued by the State Organization for Marketing of Oil (SOMO), the total exports of crude oil during March exceeded 100.9 million barrels with revenues slightly exceeding 7.5 billion USD.

SOMO data revealed that the total quantities of crude oil exported during March from oil fields in central and southern Iraq were more than 98.87 million barrels, while the quantities exported from oil fields in Kirkuk through the Turkish port of Ceyhan were nearly 1.73 million barrels.
