Baku said on Thursday that Armenia intends to continue illegal activities on its territory, referring to Yerevans rejection of the Aghdam-Khankendi into the Karabakh region as proposed by Azerbaijan.

The fact that Armenia * rejects this road (Aghdam-Khankendi) by any means possible proves that the claim of a tense humanitarian situation in the region is groundless and that Armenia intends to continue illegal activities on the territory of Azerbaijan, said a statement by the countrys Foreign Ministry.

The statement came in response to comments made by Armenian Prime Minister Nikol Pashinyan during a government meeting earlier in the day.
