Azerbaijan Defence Ministry and "TUSAS" sign a contract to upgrade Su-25 aircraft with Turkish-made smart bombs and avionics modernisation.

Azerbaijan has signed a contract with Turkey's TUSAS company to enhance its air force capabilities to modernise its Su-25 aircraft.

The project's primary objective is to integrate advanced Turkish-made smart bombs and missiles into the Su-25 aircraft, along with avionics modernisation activities for the Azerbaijan Air Force. This collaboration between the two nations' defence industries reflects their commitment to leveraging internal resources for mutual development and strengthening military capabilities.
