WHY AUSTRALIA AND THE PHILIPPINES ARE NATURAL PARTNERS ON RENEWABLE ENERGY

-

31.07.2023

The Diplomat (28 July 2023)

Nicholas Basan

Blessed with complementary capacities, the two nations stand to benefit from closer green collaboration.

The Philippines and Australia can deepen bilateral relations and business ties by collaborating in the development of renewable energy to drive economic growth in their respective countries. Both nations are endowed with renewable energy resources and are well-placed to benefit from the energy transition.
