## CHINA'S NEW STANDART MAP DOES NOT MEAN WHAT YOU THINK IT MEANS

-

06.09.2023

---

The Diplomat (5 September 2023)

Mark Raymond and David A. Welch

*Nothing in the map suggests that China is making a novel territorial claim. In fact, Beijing may be quietly walking one particularly questionable claim back.*

If a picture is worth a thousand words, then Chinas new Standard Map 2023, which has angered and alienated many of Chinas neighbors, speaks volumes. So far, however, the international audience appears to have missed its most interesting message.
