Novinite (11 September 2023)

In connection with the commitments made by Bulgaria as the host country in the military area, which will be selected for the future deployment of the multinational NATO battle group, it is planned to build new buildings and facilities in which Bulgarian and allied military formations will be located.

This is the answer of the Minister of Defense Todor Tagarev to a written question of the deputy from "We Continue the Change-Democratic Bulgaria" Miroslav Ivanov, whether permanent establishment of military forces of the alliance is envisaged on the territory of the Yambol region and more specifically in the bases in the village of Bezmer and the village of Kabyle and in what time frame this is expected to happen. According to Ivanov, this topic is used to instill fear and dissatisfaction among the local people, and the goal is to "extract a political dividend".
