Ministry of Foreign Affairs of the Republic of Türkiye (13 September 2023)

The European Parliaments (EP) 2022 Report on Türkiye, which is an advisory document, has been adopted at the Plenary Session on 13 September 2023.

The Report, as a collection of unfounded allegations and prejudices based on disinformation by anti-Türkiye circles, is a reflection of EP's well-known shallow and non-visionary approach not only towards Türkiye-EU relations but also towards the future of the EU. This report, unfortunately, demonstrates that the EP members are captives of populist daily politics, and away from developing the right strategic approach to the EU, as well as to our region.

In such a critical period of time when the stability and security of our continent are at stake and a window of opportunity has been opened to revitalize Türkiye-EU relations, we find it irrational that the EP brings to the fora other pursuits parallel to the accession negotiations which are the backbone of Türkiye-EU relations.
