Millet News (23 September 2023)

Prime Minister Kyriakos Mitsotakis was interviewed on Bloomberg news network on Friday, in the context of his visit to New York for the 78th UN General Assembly meeting.

Greece's economy is performing at higher rates than those in the eurozone, noted the Greek premier, who also spoke about Greece regaining its investment grade status.

The country can implement all of the reforms it has committed to without sacrificing economic development or fiscal discipline, added Mitsotakis.
