The 11 members of the expanded group have so little in common that its tough to decode what their purpose will be.

There seems to be every take under the sun about what BRICS expansion means. Recent headlines range from BRICS expansion is all about China to BRICS Expansion Is No Triumph for China, and queries like The BRICS Summit 2023: Seeking an Alternate World Order? and Brics summit: Is a new bloc emerging to rival US leadership? The various competing analyses beg the question: Does anyone really know what BRICS expansion means?
