In the psychological sense, Chinas invasion of Taiwan is well underway.

Amid Russias recent incursion into Ukraine, theres a prevailing belief that such actions may foreshadow a potential Chinese military move toward Taiwan. However, this perspective may not fully capture Beijings approach. I do think that Xi Jinping doesnt actually want to take Taiwan by force. He will try to use other ways to do this, General Charles Brown, the chairman of the U.S. Joint Chiefs of Staff, recently opined.
