
THE GEOPOLITICS OF GAS: TURKMENISTAN'S WESTWARD PUSH

-

08.01.2024

Oil Price (7 January 2023)

For Turkmenistan and its ambitions to export its vast natural gas reserves westward, Iran is a tantalizing but also potentially cheap, and quick, Plan B.

Relying on a partner like Tehran, however, creates potentially profound complications.

The possibility of falling prey to Western sanctions cannot be discounted. And Iran has at times proven an unreliable supplier.
