EU MOVES TO SHIELD RESEARCHERS FROM CHINESE INTERFERENCE

-

24.01.2024

Politico (23 January 2024)

Pieter Haeck

The bloc aims to prevent the emerging risks of knowledge and technology leakage.

The European Commission will call upon EU capitals to be on guard against meddling in their homegrown research from strategic adversaries in the quest for key technologies.

As part of a wider package addressing the risks from the geopolitical fight between the United States and China, the EUs executive is set to unveil a set of recommendations for EU states on Wednesday to tackle foreign interference in research and innovation.
